**CORRECTED REQUEST TO USE  
COMPUTER READABLE FORM OF  
SEQUENCE LISTING FROM  
ANOTHER APPLICATION  
PURSUANT TO 37 CFR §§ 1.821(C)  
AND (E)**

Commissioner for Patents

Mail Stop: Amendment

Dear Sir:

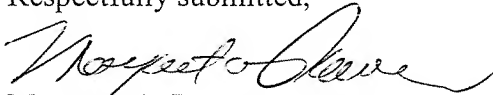

On May 21, 2007, Applicants submitted in the instant application (1) a paper copy of the Sequence Listing; (2) a Request to Use Computer Readable Form of Sequence Listing from Another Application Pursuant to 37 CFR §§ 1.821(c) and (e); and (3) a Statement Accompanying Sequence Listing in Accordance with 37 CFR §§ 1.821(f) and (g). In the Request to Use Computer Readable Form of Sequence Listing from Another Application filed in the instant application on May 21, 2007, Applicants inadvertently referred to an incorrect serial number for the instant application and inadvertently referred to parent application USSN 09/248,716 as the grandparent application of the

instant application. To correct these inadvertent errors, Applicants are filing this Corrected Request to Use Computer Readable Form of Sequence Listing from Another Application. Applicants are not re-filing the paper copy of the Sequence Listing, because that was properly filed in the instant application on May 21, 2007.

The computer readable form of the Sequence Listing for the instant application USSN 09/724,869 is identical to the computer readable form of the Sequence Listing previously filed in parent application USSN 09/248,716. Parent application USSN 09/248,716 was filed on February 10, 1999. In accordance with 37 CFR § 1.821(c) and (e), in lieu of filing a duplicate computer readable form of the Sequence Listing in the instant application, Applicants request that the last-filed computer readable form of the Sequence Listing submitted in parent application USSN 09/248,716 be used for the instant application. It is understood that the US Patent and Trademark Office will make the necessary changes in application number and filing date for the computer readable form that will be used for the instant application.

The content of the Sequence Listing recorded in the computer readable form filed in parent application USSN 09/248,716, which is to be used in the instant application, is identical to the paper copy of the Sequence Listing submitted in the instant application on May 21, 2007 and filed in parent application USSN 09/248,716 and includes no new matter.

Respectfully submitted,

Margaret A. Powers
